TPU PPF

Description

Car Paint Protection Film is a high-performance, transparent polyurethane film applied directly to a vehicle's painted surfaces. It's like putting an "invisible suit" on your car, providing long-lasting, powerful physical and chemical protection without altering the vehicle's original appearance or color.

Features

- Superior Physical Protection
- Excellent Chemical Resistance
- UV & Yellowing Resistance
- Self-Healing Properties
- Hydrophobic & Easy Cleaning

Products Specification

- Width: 1.52m
- Length: 15m
- Thickness: 6.5 , 7.5mil
